

# ThinkCentre M80s

Offers almost the same performance capabilities of a larger desktop, but in a smaller chassis, thanks to the efficient cooling system which improves air-flow. Features 10th Gen Intel Core processors, support for vPro remote manageability to reduce the cost of IT maintenance, space to install up to 3 storage devices (1x M.2 PCIe SSD and 2x HDD), an optical drive and a graphics card.

### **REASONS TO BUY**

Security features include an optional Chassis eLock which locks the computer from the inside preventing unauthorized removal of components, a cable retention system preventing removal of wired peripherals, and the ability to disable individual USB ports or prevent data transfer through them.

Despite its smaller size, users can connect 3 displays without needing a graphics card - ideal for users multi-tasking across applications.

Optimized to reduce power consumption, saving you money and reducing environmental impact. Features Energy Star and **EPEAT Silver certifications. TUV** low noise and TCO certified for lower cost of ownership.

# **VARIETY OF BUSINESS USES**

ThinkCentre M8 Series desktops offer enhanced manageability and security features, along with additional configuration and expansion options.
